Texas monitors and measures performance to ensure that the requirements of the federal law, the Individuals with Disabilities Education Act (IDEA), are met. Texas develops a six-year State Performance Plan (SPP) which includes targets and improvement strategies.
Each year Texas reports on the state's progress in meeting the targets in its Annual Performance Report (APR). The performance of each local ECI program
is also reported annually for some of the same indicators. The performance for the local ECI program is reported below, followed by the statewide performance and the statewide target.
